# ShowMatch DeltaQ Array Loudspeaker

Short Quick Pin Accessory: SMQPS

**BOSE**

PROFESSIONAL

## Installation Information

Thank you for selecting Bose Professional ShowMatch DeltaQ array loudspeakers. This document is intended to provide professional installers with basic installation and safety guidelines for using the optional short quick pin accessory with ShowMatch loudspeakers. Please read this document before attempting installation.

Each ShowMatch DeltaQ full-range array module (SM5, SM10, and SM20) and subwoofer module (SMS118) includes standard installation pins. Use the short quick pins (SMQPS) in place of the standard pins to reduce the width of the array assembly.

**Short quick pins and installation tool**

### To install the short quick pins, follow these instructions:

1. Remove side end caps and tethered standard quick pins that are factory-installed on each loudspeaker module. See Fig. 1. For detailed instructions, see ShowMatch DeltaQ Array Loudspeaker Installation Guide on **BoseProfessional.com**.
2. Align pin in appropriate location on array assembly.
3. Insert non-threaded end of tool into the top of the pin to press the button and insert the pin. The top of the pin should insert until flush with array assembly. See Fig. 2.
4. To remove the pin, screw threaded end of tool into the top of the pin, where the button is located. See Fig. 3.
5. This presses the button to release the pin and provides a grip handle to allow the pin to be removed. See Fig. 4.

Fig. 1. Remove loudspeaker module end caps

Fig. 2. Insert pin using non-threaded end of tool
